## Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

My interest in serving the community in Computing was sparked by my experience in RAG this year. For the past 2 months, the seniors demonstrated their dedication to serving the Computing community, with the heart to help juniors, giving advice on academic matters and university life. I was deeply inspired by the dedication towards RAG and I wish to contribute to building a similar environment for students in Computing. Other than welfare events and holiday celebrations, I believe that becoming part of the management committee will allow me to bond Computing's students through engagement in meaningful, non-academic activities. Through such activities, I also hope to include more students in faculty activities. In addition to my personal belief of giving back to the community, I wish to serve in this role as I find it especially meaningful for Computing students to fully utilise our knowledge as Computing majors to serve the community. I believe as technology is becoming more integrated into our society, community service projects which aim to give the community a head-start to computational thinking which will aid them in their future endeavours in society.

List down all skill(s)/experience(s) relevant for your intended position:

I intend to run for the position of Community Service Director. Given my understanding about this role, I feel that it is important to have passion in serving the community and also possessing the necessary skills to organise and plan the various CIP projects. I was appointed as a student councillor back in secondary school, after which I became the department head of School Events. My role as a department head has allowed me to take charge of multiple school events such as teachers' day, secondary 4 farewell, orientation, Crezunate (school bonding week) and many more. I was also nominated as the events head for my CCA (National Police Cadet Corps) where I organised unit camps, inter-unit competitions and many more. Having planned numerous events for my school and CCA, I faced many challenges along the way such as time management issues, ensuring that the respective ICs are adhering to the deadlines, seeking approvals for our proposals from the teachers and ensuring that the event runs smoothly. Thus I believe that I have gained some experience in planning projects and that I do possess the necessary skills in becoming the community service director. I also display passion in serving the community through my

active participation in various CIP activities. I volunteered in donation drives at YMCA, Acelexia, Tan Tock Seng Hospital and other student-led initiatives. Through my involvement in various VIA activities, I learned to exercise sensitivity towards the less fortunate, especially during my interaction with the diabetic patients during an interview. I also participated in the VIA programme that focused on the less fortunate children at Peacehaven Nursing home, Rainbow Centre, Agape Kindergarten centre and Sheng Hong Welfare Services Centre.
