Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

After attending a few of the great activities organized by the Computing Club MC, it made me wonder about how there are these select individuals that spent countless hours (and late nights) planning meticulously all for the noble cause of bringing enjoyment and more importantly, helping the freshmen integrate into the School of Computing. Given its young age, I feel that the development of the Computing Club Management Committee is still in its very early stages and there is room for bigger and much more improvements in how the committee can value add to the lives of the students of the School of Computing. I wish to be part of these select individuals as I want to give back what the School of Computing has given to me.

Back in JC, I was one of the Sports Leaders in my school, and one of the roles of being a sports leader in my school was that we had to organize a school wide event for the students of our school by ourselves. It taught me that importance of being selfless and always looking for the greater good and I believe that will be useful in my position in the 21st Management Committee.
