## Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

As an avid sportsman, I represented Computing in various sports during the Inter-Faculty Games. During my experience, I felt that there were improvements that could be made, some not by Computing Sports but by other external factors. Having missed RAG, IFG was the only way I could meet fellow computing students. Having made many friends through IFG and growing close to them through our trainings and games together, it affirmed my belief that sports bring people together. It is a platform to promote health, camaraderie and sportsmanship. Thus, I wish to be part of the 21<sup>st</sup> MC so that I can continue to promote sports as well as bring the Computing Community together.
