Declaration of Interest

Why I want to be a part of the NUS Students' Computing Club Management Committee:

Having been a student of NUS School of Computing for a year, I have participated in a number of activities the Management Committee has planned and benefited from them. Through participating in these activities, as well as helping to plan some of these events, I feel that some aspects were executed very well and I would like to bring this on in the next Management Committee. However, I have some ideas which I feel the next Management Committee can implement to improve and would like to contribute by being a part of it. I'm interested in the role of the Vice President (Internal) as I feel that both the Welfare and Sports sections could be improved to engage more Computing students and allow Computing students to become a closer community.
